About

The sixth annual International Forum will be held in Ottawa, from January 20 to 21, 2017. The International Forum is a unique initiative of World University Service of Canada (WUSC). It has been co-organized by WUSC in cooperation with CECI – the Centre for International Studies and Cooperation – since November 2013.

The International Forum is an exciting annual gathering where the best ideas and practices for international development are shared. The Forum brings together government delegates, international cooperation organizations, civil society actors and representatives from the private sector, as well as youth, researchers and international development specialists.

Participants will gain a valuable opportunity to engage with a diverse set of experts on some of the most critical global issues. By generating fresh new perspectives and exploring innovative solutions, participants enhance their contribution and renew their commitment to a more equitable and sustainable world.

The 2017 International Forum is carried out in cooperation with the Uniterra Program.

The Uniterra program is undertaken with the financial support of the Government of Canada provided through Global Affairs Canada.
